

HYDROPHYLIC PHAKIC IOL

## IPCL V2.0

- Highly biocompatible
- Easy loading
- No extra instruments needed
- Small incision
- Highest range available from +15D to -30D

Material	Hydrophilic acrylic hybrid
Total diameter	11 mm to 14 mm
Optical diameter	6,6 mm
Optical zone	6,6 mm
Refractive index	1.465
Abbe number	60
Distance between optics/haptics levels	1.20 to 1.70 mm
Standard diopter range	+0,5 D to +6 D and -0.5 D to -22 D (in 0.5D increments)
Custom diopter range	+6.5 D to +15 D and -22.5 D to -30 D (in 0.5D increments)
Standard cylindrical range	+0.5 D to +8 D (in 0,5D increments)
Custom cylindrical range	+8.5 D to +12.00 D (custom +4D) (in 0,5D increments)
Near-vision addition	+1 D to +3.5 D (custom +4D (in 0,5D increments)
Incision size	2.8 mm
