GOT Multi C₃F₈ is pure octafluoropropane, 75 ml, packaged in aluminium cylinder, intended for long-term replacement of the vitreous humour extracted during vitreoretinal surgery. Product can be used until cylinder content is consumed or as a single use product by those who favour disposable products. Special 75 ml cylinder with multi-layer bag resists pressure variations, ensuring shipping by air without any problems or limitations. Package includes an injection set made of a pre-assembled polypropylene 50ml-syringe to a 0.2 µm sterilizing filter, a connector and a 30G needle.

Ref.: GOT 009-00
