RS-OIL ECS is highly purified silicone oil (100% pure polydimethylsiloxane), 1300 cSt, 10 ml, sterile and apyrogenic, packaged in pre-filled syringe, intended for long-term replacement of the vitreous humour extracted during vitreoretinal surgery. Product warrants a stable tamponade over the time and reduced incidence of complications. The ready-to-use syringe is made of inert, plastic and silicone oil compatible material to increase patient's safety by reducing the risk of breakage during handling or surgery.
